

OUR STORY

COARVI is the result of passion and tradition of both the fishermen and the artisans who have been working on the product since 1929.

The prestigious location of our facilities - barely a kilometre away to the Fishermen Guild - has to be added to the already recognized quality of the fish caught near the waters of Delta del Ebro. It ensures the freshness and the outstanding qualities of our products.

OUR VALUES

Sustainable fishing

We believe in a sustainable fishing model, based on less harmful techniques for the sea that ensure the future of marine biodiversity.

Quality product

Coming from the waters of Delta del Ebro, we assure the maximum quality and freshness in each of our products.

Artisanal production

The more than 20 years of experience in the manufacture of handmade preserves corroborate our artisan philosophy.
